

Active Shooter Response

According to the U.S. Department of Homeland Security: “Most incidents of an active shooter situation happen within 10 to 15 minutes and are over before Law Enforcement arrives on scene. The key to surviving these types of situations is mental and physical preparation.”

This roundtable training session is designed to educate the unarmed civilian on how to respond to this worst case scenario.

ATTENDEES WILL LEARN HOW TO...

- ✓ Be presented with successful & unsuccessful case studies, training videos and a presentation from an expert on workplace violence
- ✓ Leave with practical skills and knowledge that prepare their organization in dealing with an Active Shooter scenario
- ✓ Participate in a “hands-on” drill of an Active Shooter scenario at the end of the training that will incorporate all of the tactics learned during the presentation

“It was TERRIFIC! I think the presenter was great and it really made me stop and think. I have a much better idea on what to do and what not to do. Sounds like if you are very compliant you could get killed. Good to take action if necessary. Scary, but good information. THANK YOU!”

King County Superior Court Attendee

“This was the best training I have been to. The speaker was thoroughly engaging and I never found myself zoning out or losing interest at any point. I am now really thinking about where I am (especially since I visit other locations/offices) and how I would escape. I would recommend this training be mandatory for all staff. I don’t think there was a single person in the training today who didn’t come away with something.”
